CI FLEXO PRINTING MACHINE

This machine is **central impression type Flexographic printing presses** with geared transmission. It can make printed paper for paper bags, carton boxes as whole paper roll at one time. It is composed with coating unit for printing with FLEXO ink.

It is composed 2 types that one is **sleeve type** as Anilox sleeves and plate sleeves and the other one is **roller type**. It can make to print with wide print width and long repeat length at one time as good quality. It was manufactured by our technology in our factory from drawing machine and electricity to test machine as customized needs of clients.

Technical feature

We provide standard considerable automation and remote controls to move sleeves or rollers so it will be able to manufacture products by this machine without many people.

- ※ followed this machine's manual by the remote controls up to the total functions.
- ※ Replacement of the printing sleeves directly on the printing units;
- ※ Automated printing rollers, sleeves and/or sleeve mandrels replacement system.
- ※ Possible to check your product by screen of connected camera before rewinding units.

SPECIFICATION OF CI FLEXO PRINTING MACHINE

Specification

Capacity	Max. 400 m/min
Web Available Material	Paper 100-220 g/m ²
Web Diameter	Max. Ø 1500 mm
Web Width	Max. 2300 mm
Web Automatic connection	80 - 100 mm
Print Colors	4 - 10 colors
Print Repeat Length	Min. 550 mm – Max. 1900 mm
Print Width	Max. 2200 mm
Reel Diameter	Max. Ø 1500 mm
Main Electricity	380 V / 60 Hz
Machine Dimension	L : 26.3m x W : 10.1m x H : 7m

- ※ We can offer to manufacture machines as **customized clients' needs**.
- ※ Speed is depended on ink performance and engineer skills.
- ※ Coating unit or part is option.

FLEXO PRINTING MACHINE PART

Sleeve type

It is composed in **Sleeve type FLEXO Printing Machine**. It is comfortable to change sleeves even long length by air because this machine has air mandrels with air operator for pushing the inner side surface of sleeves when engineers put sleeves on air mandrels. It is affordable who needs to manufacture many size products of printing by this printing machine.

Roller type

It is composed in **Roller type FLEXO Printing Machine**. It is proffered when you have not many size products of printing from orders of your clients. It doesn't need an air operator when your engineers change these rollers by hoist equipment in machine.
